AUTHENTICATION MODE

Why we need your data

We will use your Aadhaar number to authenticate your identity with UIDAI and, if you choose e-KYC, to receive your name, address, date of birth, gender and photo for opening or verifying your account. We will not store your full Aadhaar number or biometrics.

Data we collect

- Aadhaar number (masked after use) or virtual ID
- Demographic details and photo returned by UIDAI for e-KYC
- Authentication result and transaction ID

Your choices

- [ ] I consent to Aadhaar authentication for the purpose stated.
- [ ] I consent to receiving my e-KYC data from UIDAI.
- [ ] I understand Aadhaar is voluntary for this service and I may instead submit another officially valid document (passport, voter ID, driving licence).

Your rights

- Retention: authentication logs are kept as required by UIDAI regulations; e-KYC data is kept only as long as the account and applicable KYC law require.
- You may withdraw consent at any time, as easily as you gave it, by writing to the grievance officer. Withdrawal stops future processing but does not affect what was done before.
- You may ask for a summary of your data, its correction or completion, and its erasure once the purpose is served.
- You may nominate someone to exercise these rights if you die or become unable to.
- If we do not resolve a complaint, you may approach the Data Protection Board of India.
