Laser reduces hair growth but rarely removes it permanently. Most people need 6 to 8 sessions, 4 to 6 weeks apart, and occasional maintenance. Fine, white or grey hair responds poorly.

Health check

Have you had sun exposure, tanning or a bleach in the last 2 weeks?

○ No ○ Yes

Do you take isotretinoin or photosensitising medicines?

○ No ○ Yes

Are you pregnant?

○ No ○ Yes

Do you have PCOS or a hormonal condition?

○ No ○ Yes

ALLERGIES, MEDICINES OR DETAILS OF ANY "YES"

Risks

- Redness and swelling for a few hours
- Burns or blisters
- Darkening or lightening of the skin, usually temporary
- Paradoxical increase in hair growth (rare)

Aftercare

- Use SPF 30+ and avoid sun on treated areas for 2 weeks.
- No waxing or threading between sessions; shaving is fine.
- Avoid hot showers, saunas and gyms for 24 hours.

☐ I will wear the protective eyewear provided throughout the session.

Consent

- I am 18 or older, and the answers above are true.
- I understand that results vary with skin, hair and health, and that following the aftercare is my responsibility.
- The clinic follows hygiene practice using sterile or single-use tools where applicable.

☐ I consent to the service described and release the studio from claims for reactions I did not disclose or aftercare I did not follow.

☐ The studio may photograph the result for its portfolio and social media.
